PROFESSIONAL SUMMARY

Lead Hand with experience in production coordination, material handling, inventory, shipping and receiving, and customer communication. Brings 1 year and 6 months of machine operator experience at Euramax, 2 years at Rogers' Chocolates, and 10+ years supporting a family-owned business. Skilled in QuickBooks, Microsoft Excel, Google Workspace, forklift operation, order tracking, and workplace safety. Holds a Diploma in International Business and professional certificates.

PROFESSIONAL EXPERIENCE

Lead Hand - Fisher Coating | 2025 - Present

- Coordinate daily production tasks and help assign work to keep orders on schedule.
- Support coworkers on the floor, monitor workflow, and follow quality and safety procedures.
- Track orders, inventory, and materials using QuickBooks, Excel, and Google Workspace.
- Handle shipping and receiving, prepare orders, and operate a forklift and material-handling equipment.
- Communicate with customers about order updates and project status.
- Take accurate measurements and use chainsaws and other tools when required.

Machine Operator - Euramax | 1 year and 6 months

Machine Operator - Rogers' Chocolates | 2 years

Business Operations Assistant / Store Management - Family-Owned Business, Philippines | 10+ years of experience

- Supported daily store operations, customer service, inventory, orders, and records.
- Coordinated with employees and assisted with scheduling and payroll administration.
- Resolved customer concerns and supported basic administrative and financial tasks.

WEBSITE DEVELOPMENT EXPERIENCE

R-VENT HVAC Solutions, Inc. - Company Website | 2026

- Built and launched a responsive company website presenting HVAC services, projects, and a request-a-quote contact section.
- Connected the custom domain rventhvac.com and configured the site for GitHub Pages.

Casa Verde Taytay - Booking Website & Business Systems Project | 2026

- Built and deployed a booking website for a family-operated accommodation business.
- Implemented reservation availability, online payments, confirmations, and an administrative booking workflow.
- Configured integrations using Supabase, PayMongo, GitHub, and Render with AI-assisted development.
